MOVING YOU FURTHER

HYUNDAI

COMPACT EXCAVATOR

HX85A

HYUNDAI-CE.EU

READY TO CHANGE Your World

The HX85A Compact Excavator is part of Hyundai's brand new A-series:

a fresh generation of construction equipment that complies with the European stage V emission levels. But it goes much further than that! While fulfilling regulatory demands, Hyundai aimed for a ground-breaking level of customer satisfaction with maximum performance and productivity, better safety, more convenience and improved uptime management.

This compact new entrant to the power utility class combines a robust structure with excellent stability. Highly versatile and packed with exciting new features, it opens up a world of new possibilities where tiny efforts move mountains. It's time to experience the Hyundai Effect!

Productivity & Efficiency

SMOOTH AND EFFICIENT TO BOOST YOUR PRODUCTIVITY

The HX85A is equipped with a quiet, eco-friendly and yet high-performing Yanmar engine. It delivers impressive power along with the precision you need to handle tough jobs in confined spaces.

Engine

The new Yanmar 4TNV98C engine delivers more power and better peak torque for smooth, powerful operation, while ensuring compliance with the strict European Stage V emission requirements. This high-performing engine provides enhanced reliability and simplified maintenance. An auto-regenerate function keeps the particle filter clear and the machine up and running. This leads to reduced operating costs through better fuel economy and longer service intervals.

Load-sensing hydraulic system

Load-sensing hydraulics allow for multi-functional operation and precise machine movements. Control is smooth and predictable, even with a demanding workload. By delivering power exactly when needed, the system also contributes to fuel savings.

Two-piece boom

The new two-piece boom option gives the HX85A a dynamic working range and enhanced flexibility. As well as extending the maximum reach, the boom design allows the machine to work close to its own tracks. Vertical digging is effective, natural and complemented by an impressive overloading height.

Four-way angle dozer blade

The new four-way dozer blade option offers a great solution for grading material, back-filling trenches or removing snow. The blade angle is easily adjusted from the cabin by fingertip control, allowing for swift and precise operation. Levelling has never been so convenient.

Productivity & Efficiency

THE VERSATILE CHOICE FOR URBAN JOB SITES

With its compact dimensions, the HX85A is both stable and practical. Particularly suitable for work in confined spaces, it is a reliable choice

Compact and appealing design The HX85A has been designed with a short rear swing radius for a perfect fit in narrow jobsites requiring high flexibility.

Superior force and stability

With its excellent digging forces and lifting capacity, the mid-size HX85A punches well above its weight, offering a practical alternative to bigger machines on many tasks.

Unlimited flexibility

The HX85A is a true all-rounder. From quick, precise trench digging, working close to walls or parallel to the machine, to using different work attachments or just lifting a heavy load, it's ready to tackle every challenge.

Operator comfort

COMFORT AND CONVENIENCE DESIGNED AROUND YOU

The HX85A cabin was designed to offer every operator a productive, stress-free working environment. Comfortable and spacious, its ergonomic design will help you perform better on every job and work longer without fatigue.

built-in ESL anti-theft device is clearly structured and positioned within easy reach. It allows the operator to select work modes, activate auto-idling and see the view from the optional rear view camera. A permanent slope sensor display further improves your performance.

> Dozer blade lever The soft-grip dozer blade lever is conveniently positioned on the righthand side of the operator seat for easy, intuitive reach and activation.

Adjustable auxiliary circuit The hydraulic oil flow settings can be conveniently adjusted via the machine display. A total of 6 attachment settings

instrument cluster.

can be programmed and saved in the

Proportional Joysticks The standard proportional joysticks of the HX85A can be customized by additional machine functions on free buttons.

Safety

EXTRA PROTECTION FOR YOU AND YOUR MACHINE

Small details make a big difference when it comes to safety. We designed the HX85A to offer maximum protection for you, your worksite and your investment without compromising on productivity. Operators are protected by a sturdy ROPS/TOPS/FOPS cabin. Compact dimensions, a short rear swing radius and good all-round visibility improve confidence and peace of mind on jobs where space is restricted.

•

"The excavator stays stable on rough ground and I feel protected by the sturdy cabin structure."

Cabin structure

The cabin structure is strong, sturdy and certified to ISO 12117-2 ROPS (Roll-Over Protective Structures), ISO 12117 TOPS (Tip-Over Protective Structures) and ISO 10262 FOPS (Falling Object Protective Structures) safety standards.

FOG protection

A cabin guard (FOG - Falling Object Guard) is available as an option, allowing you to further improve safety and durability.

The ESL (Engine Starting Limiting) anti-theft system can be unlocked via the touchscreen monitor. If the wrong user password was used 6 times, the machine will remain locked for 30 minutes.

Rear view camera The optional rear view camera provides extra reassurance by allowing operators to see objects and people directly behind the machine.

Travel alarm

A travel alarm can be added as an option. It gives an audible warning when the machine is travelling backwards or forwards, so that people in the vicinity can move out of the way or keep their distance.

Serviceability & Connectivity

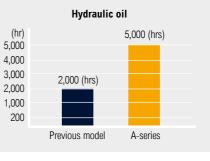

MAXIMUM UPTIME TO PROTECT YOUR BUSINESS

The peace of mind that comes with quick, low-effort servicing is also part of the Hyundai Effect. The HX85A is designed to make maintenance as convenient as possible with easy ground-level access to all components necessary for daily inspection or regular replacement. All components and materials have been optimised to ensure a long, trouble-free life, while Hyundai's innovative Hi MATE telematics system enables full remote monitoring of machine activity and performance.

Engine hood The large rear engine hood opens wide to provide easy access for maintenance tasks.

HYUNDA

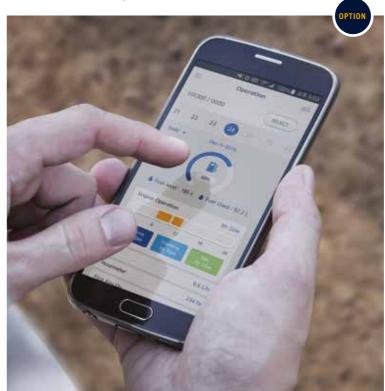

Long-life components

The HX85A is fitted with bushings designed for extended lube intervals (250 hours) and wear-resistant, noise-reducing polymer shims. The hydraulic systems are enhanced with long-life filters (1,000 hours) and hydraulic oil (5,000 hours). Efficient cooling systems and integrated heating systems further extend maintenance intervals while reducing machine downtime and operating costs.

HIMATE **Boost efficiency** and performance

For maximum convenience and security, Hyundai's exclusive Hi MATE remote fleet management system is available as an option. Hi MATE uses mobile data technology to provide the highest level of service and support. You can monitor your equipment wherever you are via a dedicated website or mobile app, with access to working parameters like total engine hours, machine utilisation, actual performed working hours and fuel consumption and machine location.

"I need all my machines up and running to protect my business. I know I can rely on the HX85A."

Aller Aller

Air filter

Parts requiring regular replacement, such as filters, are positioned for quick, easy access.

Increase productivity

By providing information such as service hours. idle time and fuel consumption, Hi MATE saves you money and improves productivity. Service alerts enable better maintenance planning.

Monitor your machines

Hi MATE's real-time location information allows better, more convenient monitoring of your equipment. Just log onto the Hi MATE website or mobile app to see your machines at any time, from any location. Receive data online, by e-mail or directly on your mobile device.

Improve security

Protect your equipment from theft or unauthorised usage. Hi MATE's geofencing alerts notify you automatically when a machine leaves a predetermined zone.

Parts & Warranties

HYUNDAI GENUINE PARTS AND WARRANTIES: THE BEST WAY TO PROTECT YOUR INVESTMENT

Hyundai Genuine parts, accessories and warranty programmes are specially designed to keep your machine covered. They increase uptime and maintain the performance, comfort, and convenience that are built into your equipment.

AHYUNDAI

110A-71040

HYUNDA

Fuel filters

runda

Hyundai fuel filters provide the right degree of filtration to keep your engine clean. They are designed to meet and exceed the engine manufacturer's prerequisites for water separation and dirt filtration, prolonging the life of your engine.

Hyundai Genuine parts

Hyundai Genuine parts have the same design as those installed when your machine left the factory. They are subjected to rigorous quality inspections and tests to make sure they meet Hyundai's strict requirements for quality and durability. As well as minimising downtime, this helps to ensure peak performance on every task.

Undercarriage parts

Hyundai track components deliver exceptional ride performance. The materials used comply with stringent quality control measures to ensure highest reliability.

A network you can rely on

Hyundai Construction Equipment Europe prioritises quick, reliable intervention to keep your equipment running reliably. In the 13000 m² warehouse, Hyundai covers over 96% of all Genuine Parts. With one of Europe's most advanced automated warehousing systems, we are able to maintain availability and efficient delivery of all our Genuine Parts. Moreover, we guarantee a 24-hour delivery service across our European dealer network.

Hyundai warranties

Our warranties are also designed to give you the cover you need to build your business with confidence and peace of mind.

Standard warranties

We offer standard warranty coverages for all compact excavators. Next to this standard coverage, optional and extended warranty periods are available, so you can benefit from full warranty coverage for longer, and even over the full lifetime of the machines. Please discuss the optimal solution for your needs with your local Hyundai dealer.

Extended warranties

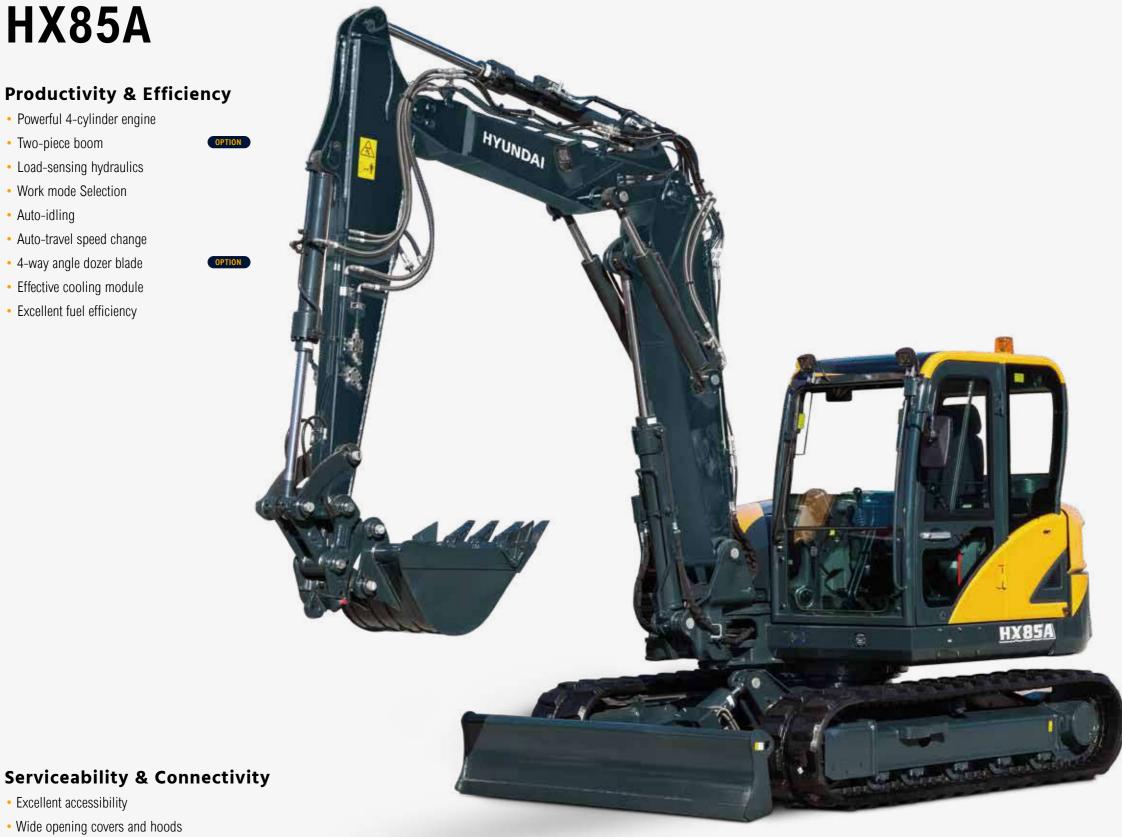

Our extended warranties help you maintain full control over your operating costs. If you combine an extended warranty programme with a tailored maintenance contract, you can completely avoid unexpected costs.

Walk-around

HX85A

Productivity & Efficiency

- Powerful 4-cylinder engine
- Two-piece boom
- Load-sensing hydraulics
- Work mode Selection
- Auto-idling
- Auto-travel speed change
- 4-way angle dozer blade
- Effective cooling module
- Excellent fuel efficiency

• Excellent accessibility • Wide opening covers and hoods

- Long service intervals
- Centralised grease fittings
- Hi MATE telematics system

Durability & Safety

- Sturdy structure
- ROPS/TOPS/FOPS cabin
- FOG protection for cabin
- Rear view camera
- LED working lights
- Accumulator for lowering front equipment
- Travel alarm
- OLED display with ESL anti-theft system
- Long-life shims, bushings and hydraulic oil

Operator comfort

- Spacious cabin with 360° view
- Proportional soft-grip joysticks
- 7-inch touchscreen monitor
- · Adjustable heated seat
- Smart key with start button
- Radio with MP3 & USB
- Hydraulic flow control by display
- Air conditioner and heating
- Electric fuel filler pump

READY TO CHANGE Your World

Hyundai's A-Series compact excavators are designed to create better conditions for operators and deliver the ultimate ownership experience. Every detail is carefully fine-tuned to match your needs in the field, including better safety and comfort, higher productivity, maximum uptime and easy servicing. It's all part of the Hyundai Effect.
