Operating weight: 18820 kg Engine power: 129 kW (173 HP) / 2200 rpm Bucket capacity: 0.70 m<sup>3</sup> - 1.05 m<sup>3</sup>

### Take your performance to the next level!

Hyundai Construction Equipment has raised the benchmark again with a new series of wheeled excavators that give you the edge in numerous on-road and off-road applications. Our A-Series machines comply with EU Stage V emissions regulations while delivering higher performance, better fuel efficiency, superior travel speed on the road, an improved cabin and added safety features. Featuring a new, compact rear design and enhanced controllability, the versatile HW170A CR is your best partner for inner city building sites and roadway construction in narrow and confined spaces, combining productivity and versatility with safety. Built for trenching, digging, dozing, drilling, cutting, lifting or site preparation, set your sights on higher efficiency and outstanding results. **Together we can move mountains!** 

IN HIGH

1 100

#### **Productivity & Efficiency**

### **AIM FOR SUPERIOR** PERFORMANCE

#### ... with effortless power.

From its upgraded, eco-friendly engine to its carefully chosen control technologies, the HW170A CR wheeled excavator helps operators to achieve new heights of productivity. The load sensing hydraulics and Variable Power Control systems tailor the machine's performance for widely varying needs and working conditions. The compact rear design increases versatility and gives peace of mind to operators.

#### Engine auto-idle

The auto-idle feature saves fuel, reduces noise and cuts exhaust emissions by automatically switching the engine to idle setting when the excavator is inactive. This reduces fuel consumption without affecting productivity.

NEW

#### Advanced exhaust aftertreatment

Our all-in-one exhaust aftertreatment module combines a DOC, SCR and DPF in one unit. EGR-free and featuring DPF auto-regeneration, this simplified system is more robust and requires less maintenance. Removing the need for EGR has also enabled us to improve productivity through better fuel economy and longer service intervals.

> makes the HW170A CR the ideal machine for confined

Tail radius

1830 mm

Load sensing hydraulic system Load sensing hydraulics allow for multifunctional operation and precise machine movements. Control is smooth and predictable, even with a demanding workload. By delivering power exactly when needed, the system also contributes to fuel savings.

Hydrostatic 4-wheel drive The 4-wheel hydrostatic drive system ensures a smooth driving experience, even in rough conditions.

NFW

A proportional single or double-acting circuit is installed as standard, enabling smooth, precise control of attachments.

The rear compact radius

#### A true compact radius for enhanced manoeuverability

The ultra-short rear swing radius allows the HW170A CR to work on narrow construction sites with people or vehicles still able to pass by. The operator can swing the turret with confidence knowing he won't hit any obstacle.

#### Eco gauge

This feature helps operators to reduce emissions and running costs by constantly monitoring efficiency. It displays engine workload and fuel-saving status while the machine is working.

**Productivity & Efficiency** 

HYUNDAI HW170A CR WHEELED EXCAVATOR

HW170Acr

# AIM FOR MAXIMUM RETURN ON INVESTMENT

HYUNDAI

...with the flexibility to tackle any job.

#### Changeable blade & stabilisers 'Plug and play' front and rear stabilisers allow for independent and tailored support according to the work environment. The blade is also fully changeable for increased versatility.

#### Trailer hitch preparation

The HW170A CR can easily be equipped for the addition of a trailer hitch, giving you the option to transport all necessary tools and machinery to the worksite in one trip. The preparation kit includes electric and hydraulic connectors for rear lights and braking systems.

#### **Electronically controlled reversible fan** The reversible fan is electronically controlled to provide automatic engine cooling. An improved self-cleaning fan mode efficiently eliminates dust and debris, protecting performance and productivity.

#### Tiltrotator

A factory-mounted Engcon tiltrotator is available as an option, boosting efficiency and profitability through enhanced control with lower fuel consumption.

#### 2D and 3D grading

Your HW170A CR wheeled excavator can be supplied with factory-prepared 2D or 3D-ready Machine Control or Machine Grading systems. This gives you the flexibility to work on a wider range of job sites and applications.

### **Durability**

# AIM FOR MORE UPTIME AND DRIVING PLEASURE

#### ... with robust construction and reliable components.

Hyundai has always been driven by the goal of providing durable machines that will create the ultimate long-term ownership experience for our customers. As well as improving engine reliability and simplifying the exhaust aftertreatment system, we have reinforced and optimised numerous other components to extend the lifetime of our A-Series wheeled excavators. Our ultimate aim is to minimise downtime and repairs so that you can stay on schedule, avoid unexpected costs and protect your profits.

Hi-grade (high-pressure) hoses High-grade hoses with outstanding resistance to heat and pressure provide maximum durability with low maintenance, even in demanding conditions.

**Centralised greasing system** A centralised automatic greasing system can be installed as an option. This optimises daily maintenance to prolong the life of all machine joints.

Dimple bushing Polymer shi

Polymer shims

#### Reinforced upper and lower frame structure

Built for unbeatable strength and sturdiness, the HW170A CR offers solid performance over a long lifetime. The upper and lower frame structures are reinforced for high workload, while the attachments have been rigorously tested for the roughest conditions.

### **Operator comfort**

# **AIM FOR MORE COMFORT AND CONVENIENCE**

#### ...with a spacious cabin and improved ergonomics.

It's easier to be productive when your workplace is comfortable and well designed. That's why we placed operators right at the centre of the HW170A CR cabin design. Light and spacious, it features a high-quality, adjustable seat and an ergonomic layout that places controls within easy, comfortable reach. Numerous features have been added to enhance convenience, reduce fatigue and promote efficiency.

3-way adjustable steering column The steering column is ergonomically operator can work more comfortably

positioned and adjustable so that every and productively.

Deluxe seat The air suspension seat is ergonomically designed and heated, helping operators to work longer without fatigue in all weathers and seasons.

Wide touchscreen monitor The 8-inch touchscreen is one of the largest on the market and features WiFi connectivity, allowing operators to take advantage of smart technologies as they work.

Joystick steering The HW170A CR features right-hand joystick steering for quick, easy manoeuvring and enhanced productivity.

Auxiliary joystick and pedal control A 2-way proportional auxiliary joystick and pedal control enable effortless operation to minimise operator fatigue.

Full climate control The efficient air conditioning is enhanced with full climate control for fast heating, cooling and defrosting.

#### Work modes

The operator can select from three different work modes - Park, Work and Travel - for convenient automatic control of a range of functions.

#### FNR and Ram Lock Switch on joystick

The Forward/Reverse switch is positioned right at the operator's fingertip. The front axle oscillation lock can also be activated from the joystick, improving convenience and productivity on demanding jobs.

#### Jog dial module

For added convenience, an integrated jog dial module allows easy control of the air conditioning and instrument cluster navigation.

#### **Operator comfort**

and 10 crusher types) to suit a wide range of

accommodates 20 attachments (10 breaker types

in optimal multi-functional operation with

Power boost function The power boost function automatically increases relief pressure for that extra push when you need it.

Floating boom function The floating boom setting allows the boom to move up and down freely under its own weight. This enables effortless levelling of surfaces.

#### Ride control

A ride control system is available as an option. This reduces rocking of the excavator body, ensuring a smooth ride on all kinds of terrain, and reducing spillage from the bucket.

Fine swing control Fine swing control enables smooth movement at the beginning and end of swing operations. This improves precision in a wide range of applications and reduces spillage from the bucket.

Advanced audio system

The audio system includes a radio player, USB-based MP3 player and Bluetooth for hands-free calling. The smart display of the cabin monitor mirrors mobile phone functions, keeping operators entertained and connected all day long.

#### Cruise control & speed limiter, creep speed drive

The HW170A CR is equipped with cruise control and speed limiter systems, allowing operators to relax while maintaining a steady speed over longer distances. When creep speed is activated, the excavator will drive at a maximum speed of 3.5 km/hr. This gives the operator better control and higher torgue with minimal effort.

#### Swing lock system

Swing lock disables the turret swing to increase safety when needed. This is particularly useful during road travel, when working next to roads and railways, or near buildings and other obstacles.

#### Safety

UNDAI HW170A CR WHEELED EXC.

## AIM FOR THE HIGHEST PROTECTION FOR WORKERS

### ... with zero compromise on efficiency.

The Hyundai approach to safety goes far beyond just meeting regulatory standards. We prioritise safety in every aspect of our machines and work with our customers to keep improving protection for operators, co-workers, passers-by, surrounding buildings and of course the machines themselves. This includes robust, protective machine structures, a cabin design that offers a clear all-round view of machine surroundings and a series of additional features and technologies that increase peace of mind on and off the work site.

DAI

#### **Safety valves on all cylinders** As a standard feature, safety valves are integrated on the boom, arm, blade and ram lock hydraulic cylinders.

#### LED lights

All the working lights are LED-type for greater visibility during work and travel.

#### Safety glass

HW17

 $\left( + \right)$ 

(+)

Safety glass has been used for all windows, including a laminated glass front window for added protection.

#### Cabin suspension mount

Integrated silencer blocks minimise noise and vibration inside the cabin, reducing fatigue and allowing safer, more enjoyable operation.

#### Improved cabin access

The cabin access steps have been redesigned for safe, convenient entry.

### Safety

Short swing radius

The short swing radius gives operators extra peace of mind and improves safety for colleagues and passers-by: while working on one lane of a road, the machine can swing without disturbing traffic on the second lane.

The auto safety lock feature prevents unintentional ignition and random machine movement. When the safety lever is unlocked, the engine cannot be started and the system will not engage, even if the joystick is pressed accidentally.

Emergency steering

If the hydraulic supply should fail, manual

steering is automatically enabled.

**ROPS / FOPS certified cabin** 

To protect workers, the cabin structure is reinforced with integrally welded, low-stress, high-strength steel. It is certified to ISO 12117-2 (ROPS - Roll-over Protective Structures) and ISO 10262 Level 2 (FOPS - Falling Object Protective Structures) safety standards.

#### Advanced Around View Monitoring (AAVM)

Hyundai's AAVM camera system can be installed as an option, giving operators a 360° overview of their immediate working environment, including rear, side mirror and birds-eye views. It also integrates Intelligent Moving Object Detection (IMOD) technology that senses and warns the driver when people or objects come within five metres of the machine.

#### Axles and fenders

The HW170A CR has been equipped with a heavy duty axle for higher durability and to enhance stability in different conditions and material handling applications. Sturdy fenders, covering the wheel even when steering, have been added to protect the tyres from flying debris while driving.

New upper structure design The upper structure has been redesigned to improve access for maintenance.

#### Serviceability & Connectivity

# **AIM FOR MAXIMUM UPTIME AND EFFICIENT SERVICING**

#### ... with intelligent machine management and easy access.

Our A-Series wheeled excavators are designed with guick, low-effort servicing in mind. Every component and material has been optimised to ensure a long, trouble-free life. Hyundai's innovative Hi MATE telematics system enables full monitoring of machine activity and performance. Maximum connectivity is integrated to help owners create a smart construction site and protect profitability as their business grows.

Fuel filler pump An integrated fuel filler pump with auto stop makes refuelling quick and easy.

#### **Mobile Fleet app**

Hyundai's new Mobile Fleet app provides all the information you need to run your fleet efficiently and economically. Based on telematics, this advanced solution uses simple graphics and key performance data for smart fleet management.

### HIMATE

### **Boost efficiency** and performance

For maximum convenience and security, the HW170A CR features Hyundai's exclusive Hi MATE remote fleet management system, which uses mobile data technology to provide the highest level of service and support. You can monitor your equipment wherever you are via a dedicated website or mobile app, with access to working parameters like total engine hours, machine utilisation, actual performed working hours, fuel consumption and machine location.

DEF/AdBlue filler access Access to the DEF/AdBlue tank filling point has been made easier with redesigned steps.

a higher problem resolution rate.

#### **ECD (Engine Connected Diagnostics)**

ECD provides troubleshooting advice as well as tailored servicing and parts support from Cummins Quick Serve. Service technicians are supported with remote diagnostics reports allowing them to prepare for initial site visits, bring the right tools and achieve

#### Increase productivity

By providing information such as service hours, idle time and fuel consumption, Hi MATE saves you money and improves productivity. Service alerts enable better maintenance planning.

#### Monitor your machines

Hi MATE's real-time location information allows better, more convenient monitoring of your equipment. Just log onto the Hi MATE website or mobile app to see your machines at any time, from any location. Receive data online, by e-mail or directly on your mobile device.

#### Improve security

Protect your equipment from theft or unauthorised usage. Hi MATE's geofencing alerts notify you automatically when a machine leaves a predetermined zone.

#### **Genuine parts and warranties**

## THE BEST WAY TO PROTECT YOUR INVESTMENT

Hyundai Genuine Parts, accessories and warranty programmes are specially designed to keep your machine covered. They increase uptime and maintain the performance, comfort, and convenience that are built into your equipment.

#### Fuel filters

Hyundai fuel filters provide the right degree of filtration to keep your engine clean. They are designed to meet and exceed the engine manufacturer's prerequisites for water separation and dirt filtration, prolonging the life of your engine.

#### Aftermarket kits

You can order Hyundai aftermarket kits via your dealer. This AAVM system for example, improves safety in and around your work environment at all times.

#### Hyundai Genuine Parts

Hyundai Genuine Parts have the same design as those installed when your machine left the factory. They are subjected to rigorous quality inspections and tests to make sure they meet Hyundai's strict requirements for quality and durability. As well as minimising downtime, this helps to ensure peak performance on every task.

### Hyundai warranties

Our warranties are designed to give you the cover you need to build your business with confidence and peace of mind.

#### **Standard warranties**

We offer standard warranty coverage for all wheeled excavators. In addition, optional and extended warranty periods are available, so you can benefit from full warranty coverage for longer, and even over the full lifetime of the machine. Please discuss the optimal solution for your needs with your local Hyundai dealer.

#### **Extended warranties**

Our extended warranties help you maintain full control over your operating costs. If you combine an extended warranty programme with a tailored maintenance contract, you can completely avoid unexpected costs.

#### A network you can rely on

Hyundai Construction Equipment Europe prioritises quick, reliable intervention to keep your equipment running reliably. In its 13000 m<sup>2</sup> warehouse, Hyundai covers over 96% of all Genuine Parts. With one of Europe's most advanced automated warehousing systems, we are able to maintain availability and efficient delivery of all our Genuine Parts. Moreover, we guarantee a 24-hour delivery service across our European dealer network.

Rock-HD

• Applicable for materials with density of 2100 kg/m<sup>3</sup> or less O Applicable for materials with density of 1800 kg/m<sup>3</sup> or less Applicable for materials with density of 1500 kg/m<sup>3</sup> or less ▲ Applicable for materials with density of 1200 kg/m³ or less X Not Recommended

#### ATTACHMENT

Booms and arms are welded with a low-stress, full-box section design. 2.0 m, 2.45 m, 2.6 m arms are available.
